Crama Rasova

Reprezintă una dintre cele mai moderne crame din România, ridicată în 2014 pe Dealul Vîfor, sub soare Dobrogean – un soare care este prezent peste 2100 de ore pe an, mai mult decît în orice altă zonă din țară, de aceea, Soarele, reprezintă simbolul nostru.

Podgoria și crama se află acolo unde cele patru elemente ale naturii par că au atins armonia perfectă, în apropierea Mării Negre, pe unul dintre malurile Dunării, cu vedere la podul proiectat de Gustave Eiffel și construit de Anghel Saligny aici în vremea lui Carol I, fiind chiar și ea în sine o apariție arhitecturală ceva mai specială în zona – “ca o gramadă de stînci albe ieșite din pamînt”, după cum spune Bruno Andreșoiu, arhitect Igloo.

Denumirea cramei vine de la localitatea învecinată cu același nume – o localitate foarte veche în care se găsește și castrul român Sacidava.

Traseul din crama este astfel gîndit încît grupurile de turiști ghidate de reprezentanții cramei să poată fi efectuate inclusiv în perioada de recoltă, sau ca evenimentele – publice (concerte și festivități), private sau corporative – să se poată desfășura fără a afecta activitatea din crama. În plus, design-ul minimalist al cramei face ca întreaga construcție să fie perfect integrată în peisaj, ca o creștere naturală, aproape organică, a stîncilor albe de pe malul abrupt al Dunării.

Rasova Winery

It represents one of the most modern wineries in Romania, built in 2014 on Vîfor Hill, under the Dobrogean sun – a sun that is present over 2100 hours a year, more than in any other area of the country, therefore, the Sun, our symbol.

The vineyard and winery are located where the four elements of nature seem to have reached perfect harmony, near the Black Sea, on one of the banks of the Danube, overlooking the bridge designed by Gustave Eiffel and built by Anghel Saligny here in the time of Charles I, being even itself a somewhat more special architectural appearance in the area – “like a pile of white rocks sticking out of the ground”, as Bruno Andreșoiu, Igloo architect, says.

The name of the winery comes from the neighboring locality with the same name – a very old locality where the Romanian Sacidava castle is also located.

The route from the winery is designed in such a way that groups of tourists guided by representatives of the winery can be carried out including during the harvest period, or that events – public (concerts and festivities), private or corporate – can take place without affecting the activity in the winery. In addition, the minimalist design of the winery makes the whole building perfectly integrated into the landscape, like a natural, almost organic growth of the white rocks on the steep bank of the Danube.
